

# JEEP TOURS

*The miners may be long gone, but they were nice enough to leave us miles and miles of jeep trails in the surrounding mountains. Jeep rentals are available in Durango and the trails can take you to places like you've never seen. To the west of town, jeeping in the La Plata Mountains is breath taking and challenging. Up north, literally hundreds of miles of rocky trails connect Silverton, Ouray, Creede, and Telluride. Whether you want a simple cruise through the hills or an axel bending ride over Cinnamon pass, this area has something for you.*
