

# Cross Country Skiing

One of the nicest parts of the winter wilderness is the absolute silence. Several cross country skiing locations exist both north and east of Durango. For the new skier, several groomed locations exist, including Durango Mountain Resort, and Vallecito reservoir.

For the brave, take your gear and pull over to any nice spot on Molas pass, and away you go (Use your head, always ski with a partner, avalanche beacon, shovel and probe). All of your cross country ski rental needs are available at Backcountry Experience, located just a few blocks north of the Strater Hotel on Camino Del Rio.
